## GABRIELLA WICKER

**G**abriella Wicker is a junior, studying education, psychology, and sociology at Xavier University of Louisiana, hailing from Folcroft, PA.

On campus, Gabriella plays an active role in effecting change through NCNW. During her term as Event Planning Chair, she created and hosted Purple Table Talks to facilitate conversations designed to foster a deeper sense of sisterhood for current and prospective members. As a result of Gabriella's ability to effectively engage with attendees, her section had a record number of new inductees. Gabriella is excited to serve NCNW in a greater capacity, as president for the 2024-25 academic year. Off campus, Gabriella works with bEHR Health Systems to drive community outreach and engagement.

With a passion for education, Gabriella has served as a Psychological Statistics, Supplemental Instructor—in this capacity she coordinated and facilitated weekly interactive sessions to assist students with better understanding course material. Gabriella is an aspiring licensed clinical social worker (LCSW)—she will leverage her education, experience, and passion to establish a community health non-profit that provides affordable mental and maternal healthcare to create more equitable access for Black and Brown communities.

**Gabriella is, a NCNW Bethune-Height rising changemaker!**
